

Dear family,

We are contacting you because your son or daughter is attending a **nursery school in Barcelona** and his or her personal information is already included in the educational system's Student Registry of Catalonia (RALC).

This upcoming March, families with children born in 2023 must pre-enrol in I3 for the 2026-2027 school year. From now on, the Barcelona Education Consortium will help to you prepare for this new educational stage, and you will soon receive detailed information on the steps to follow.

What do you need to know?

- Before starting the pre-enrolment process, it is important to prepare for the transition to the new school that will welcome you next academic year, especially in the case of **children who may need some kind of specific support or personalised educational monitoring.**
- Knowing the situation and needs of each child in the 0- to 3-year-old age group is key in order to guide you properly in schooling and guarantee that your son or daughter receives a warm welcome, tailored to their needs, from the first day at the new educational centre.

What should you do?

- We ask you to **inform your current nursery school about any educational needs that your child may have**, whether this need has been observed recently and you have not yet shared it with any professional, or whether it has been previously detected by the school itself, by the family or by other professionals (Child Development and Early Care Centres (CDIAP)/Interdisciplinary Team for Early Childhood (EIP)).
- In any of these cases, the nursery school must be informed directly. The school will collect the information and, if necessary, pass it on to the Barcelona Education Consortium.

We thank you for your cooperation on this matter. Thanks to the coordinated work of the Municipal Institute of Education, nursery schools, early childhood services and the Barcelona Education Consortium, together with the participation of families, we can guarantee suitable schooling adapted to each child.

Cordially yours,

María José Cesena

Director of the Inclusive Education Area
Barcelona Education Consortium
